

Floating *Pikake* (Jasmine) Earrings

A light chain-threader earring with an open pikake jasmine blossom and a tiny shell flower drop that floats below the petals.

FINISHED EARRINGS

Materials

PIKAKE	C143A x 2 · open pikake or jasmine flower beads.
THREADERS	G6-58 x 1 pair · gold-filled chain threader ear wires. If it is too long, use G6-59 and pull it to your preferred length.
SHELL DROPS	GEM2346P x 2 · small Shiva eye heart beads.
GF BALLS	M69 x 2 · 3mm round gold-filled balls.
HEADPINS	1" 26 gauge gold-filled ball headpins x 2.
WIRE	26 gauge gold-filled wire · about 6" total.
CHAIN	CH247 x 1 in. (cut in half; 1/2 in. each).

How To

1. String a Shiva eye heart onto a ball headpin, right side up as a heart or upside down as a flower petal. Make a wrapped loop and attach it to the end of the chain.
2. At the other end of the chain, use 26 gauge wire to make a wrapped connection. Pull the wire up through the open flower side of the jasmine bead.
3. When the wire exits the jasmine, add a 3mm round. Finish with a wrapped loop onto the earring threader.

Pro Tips

- Count chain links before closing both sides so the pair hangs evenly.
- Keep the top snug with a small spacer bead above the pikake stem.
- Close every loop tightly so fine chain cannot slip out while the earring moves.
